# ORIGIN OF NCC

The NCC in India was formed with the National Cadet Corps Act of 1948. It was raised on 15 July 1948. The origin of NCC can be traced back to the 'University Corps', which was created under the Indian Defense Act 1917, with the objective to make up the shortage of the Army. In 1920, when the Indian Territorial Act was passed, the 'University Corps' was replaced by the University Training Corps (UTC). The aim was to raise the status of the UTC and make it more attractive to the youth. In 1949, the Girls Division was raised in order to give equal opportunities to school and college going girls. The NCC was given an inter-service image in 1950 when the Air Wing was added, followed by the Naval Wing in 1952

# AIM OF NCC

The NCC aims at developing character, comradeship, discipline, a secular outlook, the spirit of adventure and ideals of selfless service amongst young citizens. Further, it aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.
